Autumn Courtship

October raps once, and I sigh like a martyr and to the door. I am not to be charmed by the kiss-run lover I've known him before.

I am braced for the hazel-flecked gaze and the grin. "I am busy with summer," I tell him, as always "You may not come in."

But he laughs in my face as he holds out the gift can never withstand -- A maple leaf, bright as a flame, on the palm of his winter-chapped hand.

District of Columbia Congressman Walter Fauntroy will be guest speaker at the UNCW commemoration of the birthday of Dr. Martin Luther King Jr., at 3:30 p.m., Thursday, January 11, in Cameron Hall Auditorium. The event is free and the public is invited to attend.

Active in the civil rights movement of the 1960s, Fauntroy was appointed by King to head the Washington Bureau of the Southern Christian

Leadership Conference. He coordinated the Jobs and Freedom march on Washington in 1963 and served as national director of the Poor People's Campaign in 1969.

Fauntroy was elected delegate to the House of Representatives in 1971, the first person elected in 100 years to represent the District of Columbia. He also spearheaded the movement to allow the District to elect its own mayor and city council.

Currently, fourth ranking member on the Banking Committee, Fauntroy is expected to assume the chairmanship. He also chairs the subcommittee on International Institutional Banking and Finance. His biographical material notes that his policy concerns are "focused on the current state of America's economy: keeping corporations and institutions owned by Americans and not letting our destiny be controlled by foreign investors."

A native of Washington, D.C., Fauntroy was educated at Virginia Union University, graduating cum laude in 1955, and at Yale University Divinity School where he was awarded the bachelor of divinity in 1958.

Sponsored by the Office of Minority Affairs in cooperation with several student groups and the Association of Campus Entertainment, this program represents UNCW's seventh annual commemoration of Dr. King's birthday.

Destructive Software Warning: A bogus corporation called PC Cyborg has mailed a PC software package titled "AIDS Information-An Introductory Diskette" to some 7,000 corporations. Documentation that comes with the diskette indicates that the software provides a data base of AIDS information. Problem: the install program contained on the diskette creates a hidden file that when randomly activated wipes out the hard disk. Distribution of the product, which so far has been limited to Western Europe, comes with a notation not to distribute or use these programs in the U.S. However, in a precautionary effort -- faculty and staff are being informed of this potential hazard. This is not a virus - it only attacks the computer on which it is installed. Anyone coming into contact with this software or PC Cyborg is urged to call Computing and Information Systems immediately.

A PUBLICATION FOR UNIVERSITY FACULTY AND STAFF

University Advancement

Patsy Larrick, *Editor*

SPECIAL EDITION **Chancellor Announces Plans To Retire**

Soon after my illness last spring, I began thinking more and more about the opportunities and challenges facing this University during the 1990's. It is my firm belief that The University of North Carolina at Wilmington will continue its growth in size and quality far into the 21st century. We will continue to add new programs at the undergraduate and graduate levels. New buildings will be built. Additional students will enroll. Traditions will develop. New faculty will take their places beside my distinguished faculty colleagues already here. This last decade before the year 2000 will be critical to the long range future of this, the University that I love most of all. Leadership which is vigorous, with vision, patience, and tenacity is critical if the dreams that we dream are to come true.

With the support of this faculty and staff, this Board of Trustees and support of all of the Trustees who were their predecessors, it has been my privilege to serve this University as President and Chancellor for almost 22 years. No Chancellor has been blessed with a more qualified and supportive faculty, a more dedicated group of senior officers and staff than have I.

The time has come, I am convinced, when I should retire as Chancellor and so, as difficult as it is for me to say these words, I am announcing to you, my colleagues, that I will be retiring at the conclusion of this year. Retiring, yes, but not ceasing to dream with you the dreams of greatness. I wish to continue for a long while in your midst teaching, writing, and watching this University take its place with the finest.

I discussed my decision with President Spangler before the holidays and he is ready to meet with our Board of Trustees to discuss a search for my successor. My heart will be with you in the process.

According to results of the annual freshman survey conducted at UCLA, 51% of UNCW's 1990 freshmen had a high school GPA of B+ or better while national stats indicated that 40% reported B+ or better high school grades. UNCW's freshman class showing of 51% was substantially higher than the freshman class of '84 when 31% of UNCW students had a B+ or better average coming in. Installation as Chancellor

James R. Leutze April 5, 1991

The University of North Carolina at Wilmington

Commemorative issue of Campus Communique March 22, 1991

UNCW has planned a four-day series of cultural, educational, social, and ceremonial events April 2-5 in observance of the installation as chancellor of Dr. James R. Leutze. Leutze, who became chancellor of UNCW in July, 1990, is the fifth chief administrator of the institution and its second chancellor. Although he assumed full responsibility and authority as chancellor in 1990, Leutze selected the first week in April for the installation because he wanted the activities to spotlight the UNCW campus and Wilmington at their prettiest. The installation, actually an academic convocation, will involve UNCW faculty, staff, Board of Trustees and students as well as dignitaries and delegates from across the country. These ceremonies mark the first such activities in more than 21 years when Dr. William H. Wagoner was inaugurated as president of Wilmington College on May 1, 1969. Installation events were planned to be of broad intellectual and cultural interest to the public throughout Southeastern N.C. Public attendance at most events is welcomed and encouraged.

Free Expression Celebration: Launching the installation observances will be the Free Expression Celebration from 11:30 a.m. - 5:30 p.m., Tuesday, April 2 -- a day of artistic performances, debate, and discussion featuring students and faculty in the Communication Studies and Fine Arts departments. First on the day's agenda will be a tree planting and flag dedication ceremony at 11:30 a.m. on the front lawn of the University Center. Dr. Leutze will plant a tree to commemorate the occasion. Starting at noon, approximately 16 events ranging from stand-up comedy to classic rock 'n roll to a lecture on "**Should Alcohol be Sold and Served on Campus?**" will take place throughout the afternoon in the courtyard of Kenan Hall and the newly named Free Expression Square, the lawn between Kenan Hall and King Hall. Student and faculty art will also be on display in Kenan Hall as part of the Free Expression Celebration. The public is invited to attend all the events during the Free Expression Celebration. An art show of student pastels curated by Donald Furst, associate professor of art at UNCW, will run from April 1- 26 in the lobby of Kenan Hall. An exhibit of documents, photographs and other items highlighting the history of UNCW will be on display in the museum cases of Randall Library throughout the week of April 2-5.

Academic Symposia on Nursing and Education Issues: In addition to the installation, two academic symposia will focus on issues in nursing and education April 3-4. "**Differentiated Practice: A Model for the Future?**" is the topic of a one-day workshop from 8:30 a.m. - 4:30 p.m., Wednesday, April 3 at the Coast Line Convention Center in

Academic Symposia on Nursing and Education Issues: In addition to the installation, two academic symposia will focus on issues in nursing and education April 3-4. "**Differentiated Practice: A Model for the Future?**" is the topic of a one-day workshop from 8:30 a.m. - 4:30 p.m., Wednesday, April 3 at the Coast Line Convention Center in downtown Wilmington. The workshop is sponsored by the UNCW School of Nursing and the North Carolina Nurses Association in cooperation with the Wilmington Area Health Education Center. Of particular interest to the public will be a 9 - 10:15 a.m. free talk by JoEllen Koerner, vice president for patient services at Sioux Valley Hospital, Sioux Falls, SD. Koerner is a leader in differentiated practice, a concept which proposes to differentiate job responsibility for nurses based on education and experience. This is an important topic in modern nursing care because, historically, even with different levels of education, most nurses have been classified the same and have been used interchangeably. Koerner will discuss how this concept promotes job satisfaction for nurses, higher quality care for patients, and better efficiency in time and money management. "**Public Education: America's Real National Debt?**" will be the topic of a two-day symposium Wednesday and Thursday, April 3-4 on campus. Two afternoon sessions featuring nationally known speakers on education topics will be open to the public at no charge. Wednesday afternoon at 12:45 in the Ballroom of the University Center, Dr. Barbara Hatton, deputy director of the Ford Foundation's Education and Culture Program in New York City, will speak on "**Public Education Reform: The Unfinished Agenda.**" A former dean of the School of Education at Tuskegee University and Atlanta University, she is also a member of the National Board for Professional Teaching Standards in New York City. Following Hatton at 2:30 will be a presentation on **Educational Renaissance: Improving our Schools for the 21st Century** by Dr. Marvin Cetron, one of the nation's foremost futurists and co-author of *Educational Renaissance: How to Improve Our Schools by the Turn of the 21st Century*. Cetron, president of Forecasting International, Ltd., is a pioneer in corporate, industry, demographic, and lifestyle forecasting. The next afternoon in Cameron Hall, the symposium continues with two other notable speakers. At 1:15 p.m., Dr. Teresa Amabile, professor of psychology at Brandeis University and author of several works on creativity, will speak on "**Reducing the Debt: Implementing Creativity in our Schools.**" (continued next page)

For the past 15 years, she has specialized in research on the ways that social environments can influence the verbal, artistic, and problem-solving creativity of children and adults. After Amabile's talk, at 2:30 p.m., **William F. Winter**, former governor of Mississippi and former chair of the Southern Growth Policies Board, will speak on "Education: **Where do we go from Here?**" Throughout his career of public service in Mississippi, Winter sought to raise the educational standards of the state and was widely recognized for his efforts. The Education Symposium is funded by a \$25,000 grant from the Z. Smith Reynolds Foundation.

Festive Breakfast and Installation Ceremony: Culminating the week's activities will be the academic pageantry of the installation ceremony at 10:30 a.m., Friday, April 5, at Trask Coliseum where Leutze will be sworn in by James G. Exum, chief justice of the North Carolina Supreme Court. Presiding at the installation ceremony will be University of North Carolina President C.D. Spangler, Jr. Representing the Board of Governors will be Samuel H. Poole, chair. The Wilmington Symphony Orchestra, the only resident orchestra in the Lower Cape Fear, will provide music for the installation ceremony, Handel's *Music for the Royal Fireworks*. Under the direction of conductor Steven Errante, a member of UNCW's music faculty, the orchestra is made up of musicians from Wilmington, surrounding counties, and the university.

Of particular interest during the ceremony will be the unveiling of the UNCW mace, which as been under development for a number of years. It will be used at academic convocations, including commencements. The handcrafted mace incorporates elements and materials important to the history of UNCW and the region, including representations of the seals of New Hanover County, Wilmington College, the University of North Carolina, and the University of North Carolina at Wilmington. The shaft of the mace is made of live oak, a tree indigenous to the area. Four bands are found on the shaft and symbolize the four schools within UNCW. The gold-plated bands are inlaid with mother of pearl to symbolize the university's ties with the ocean. Contrary to popular belief, the mace dates back to ancient times. First used as a weapon, archaeological evidence indicates that it was also used ceremonially in the Chalcolithic Era, 4000-3100 B.C.E. During medieval times the mace was again used as a weapon. Today it symbolizes the flame of learning, humankind's pursuit of knowledge, and quest for truth and wisdom. It is carried by the faculty marshal at formal academic convocations.

Residents of Southeastern North Carolina are invited to attend the installation ceremony as well as take part in the festive breakfast on the lawn between Alderman and Hinton James Hall starting from 8:30 to 10 a.m., Friday, April 5. Campus tours will be available during the hours of the breakfast. Social activities surrounding the installation include a private reception honoring the Leutzes aboard the *USS Battleship North Carolina* from 7-9 p.m., Wednesday, April 3, hosted by the UNCW Board of Trustees. Attendance at this function is by invitation only. A black-tie Installation Ball will be held at 6:30 p.m., Thursday, April 4, in the ballroom of the University Center. A fund-raiser for the Friends of the University, the ball is open to the public for a contribution of \$50 per person, \$25 of which is tax deductible. For ticket information, call Margaret Robison at 3178. That same evening, the installation committee and the UNCW Association for Campus Entertainment (ACE) is sponsoring a Student Outdoor Celebration and Picnic at 6 p.m. at the Residence Life Gazebo for students, faculty, and staff. The band, Mr. Potato Head, will be featured during this free event.

Installation and Funding Planning for the installation events began in the fall of 1990 by a committee made up of trustees, faculty, staff, and students. Chairing the Installation Committee is M. Tyrone Rowell, associate vice chancellor for University Advancement, with co-chairs, Jane Smith Patterson, interim vice chancellor for University Advancement, and Dr. Everard Smith, special assistant to the chancellor.

Costs: Many non-appropriated sources of funds have been tapped to finance the activities associated with installation, including the \$25,000 grant from the Z. Smith Reynolds Foundation for the educational symposium; approximately \$1,000 from the School of Nursing's privately supported funds designated for professional development and community service; and about \$4,500 from the Forensics budget funded by student fees for the Free Expression Celebration. The celebration was planned independently of installation but the organizers were invited to present it in conjunction with installation. Outside of the above expenses, the projected cost of installation is anticipated to be approximately \$38,000 of which \$15,000 was a grant from the university's General Administration; \$17,000 from the UNCW Foundation; the balance is a voluntary donation from individual members of the UNCW Board of Trustees. Expenditures include Battleship reception, festive breakfast, printing and postage for invitations and programs, luncheon for delegates and guests, chair rental, flowers, decorations, breakfast for visiting chancellors, and other miscellaneous costs.

FREE EXPRESSION CELEBRATION

Comedy, debate, artistic performances and much more will highlight UNCW's first Free Expression Celebration throughout the afternoon of April 2. Students and faculty in the Communication Studies and Fine Arts departments have planned a packed schedule in two locations -- Kenan Hall Courtyard and the newly named Free Expression Square, the lawn between Kenan Hall and King Hall. All members of the campus community are invited to drop by for the activities that interest them. The Free Expression Celebration focuses campus attention on student creativity. It was selected to launch the four-day schedule of activities planned for the installation of Dr. James R. Leutze as chancellor. The official opening of the Free Expression Celebration and installation observances will be a tree planting ceremony at 11:30 a.m., Tuesday, April 2. Chancellor Leutze will plant a tree on the front lawn of the University Center to serve as a living memorial of his installation.

In conjunction with the tree planting, there will be a dedication of 9 international flags signifying the countries represented by international students attending UNCW. The new flags will join 18 already hanging on permanent display in the Hawk's Nest.

Among the events scheduled at Free Expression Square are comedy at 1 p.m. with Dr. Stan Norman and John Panichello; a discussion of "Media and the Environment" with naturalist Andy Wood at 2 p.m.; a debate on "Should Alcohol be Sold and Served on Campus?" at 2:30 p.m.; rock 'n roll at 3 p.m.; and classical guitar with Robert Nathanson at 4 p.m..

Kenan Hall Courtyard will be the setting for vocals with Rhonda Ezzel at noon; Chamber Singers at 12:30 p.m.; discussion of African-American music by Dr. Patricia Lerch at 1 p.m.; classical guitar with Brant Vanhoy at 2:30 p.m.; piano performances by Matt Fish and John Boulware at 3 p.m.; and jazz at 3:30 p.m. with Dr. Frank Bongiorno and poetry at 4 p.m. with Janet Ellerby and Agnes McDonald.

A student art show will be on display throughout Kenan Hall during the celebration. Wrapping up the day's events will be a reception in the lobby of Kenan Hall at 4:45 p.m. Everyone is invited. The event is being organized by the UNCW Forensics Program which provides students opportunities to participate in speech and debate with assistance from students in Dr. Lloyd Rohler's Science, Communication and Society class.

Directing the Free Expression Celebration are Joey Collins, senior drama major, and Frank P. Trimble, assistant professor of communication studies and advisor to the Forensics Program.

REGIONAL SERVICE: With the help of a \$75,000 grant from the Z. Smith Reynolds Foundation and a restructuring of UNCW's external affairs - the university is now positioned to take a leadership role to help Southeastern NC solve regional issues and facilitate economic development. The grant, along with matching funds of \$37,345 from UNCW, will allow UNCW to formalize planning for regional service, one of the goals announced by **Dr. Leutze** for the university when he became chancellor last year. As a regional university, UNCW will be committed in assisting regional institutions as they prepare for upcoming challenges. Counties to be impacted include Bladen, Brunswick, Carteret, Columbus, Craven, Duplin, Greene, Jones, Lenoir, New Hanover, Onslow, Pamlico, Pender, Sampson and Wayne. Initial focus is expected to be in the areas of economic and community development, human resource development and preservation of the regional natural resources. SPECIAL EDITION

UNCW Mission Statement

The University of North Carolina at Wilmington is a community of scholars dedicated to excellence in teaching, learning, research, artistic achievement, and service to local and global communities. It is an evolving, comprehensive university of moderate size that values close relationships among students, faculty, and staff in a diverse, supportive and challenging intellectual environment.

The University of North Carolina at Wilmington, founded as Wilmington College in 1947, owes much of its development and dynamic character to its heritage and location. The student-centered philosophy of the university comes in part from its origin as a community college with small classes and extensive interaction between students and faculty. With growth, the focus has expanded to include graduate students, bringing increased opportunities for scholarly activities.

As the only public university in southeastern North Carolina, this institution bears a special responsibility for education and service. The university is committed to providing lifelong learning opportunities, assisting with the improvement of public school education, and enhancing the personal, cultural, and economic health of the region. Located in an historic port city, the university provides related experiences in cultural, commercial, and archaeological studies. The proximity of the Atlantic Ocean enables the University to be a leader in marine studies and provides an exceptional opportunity to teach and practice environmental awareness and responsibility. The university is dedicated to the preservation of conservation areas on campus that are representative of ecosystems in the region.

The university seeks to stimulate in its students intellectual curiosity, imagination, rational thinking, thoughtful expression, and a love of learning. Knowledge of the humanities, social and natural sciences, and fine arts, along with effective communication and decision-making skills are central to the curriculum. Students are encouraged to develop an understanding of their own and other cultures in order to appreciate the rich variety of thought and lifestyles that form the world in which they live. The university offers programs to help students clarify values, develop physical well-being, work independently and interdependently, and participate in university governance. The university is committed to providing each student with opportunities, resources, and guidance to achieve personal, academic, and career goals.

Excellence in teaching and creative scholarly activity are fundamental for any university. The pursuit of knowledge and understanding complements effective teaching, sustains intellectual vitality, and is an important contribution to the larger community. Research and artistic endeavors are essential for faculty and students. The university encourages and supports scholarly work and seeks to attract energetic faculty with diverse interests and expertise.

The university provides a secure intellectual, social, and physical environment conducive to achieving its mission. Freedom of thought, expression, and association are fostered and protected. The continuing development of students, faculty, and staff, as well as the maintenance and development of academic and social programs of excellence, are ensured with funds from both public and private sources. HUMAN RESOURCES

Pre-taxing Medical Insurance Premiums - Payroll deductions for medical insurance premiums (either PHP or State Major Medical) are made on a pre-tax basis, resulting in a substantial tax savings.

However, this benefit could reduce the maximum contribution that can be made to a supplemental retirement income (401(k)), a tax sheltered annuity (403 (b)), or a deferred compensation (457) plan. Also, your social security earnings upon retirement may be marginally affected due to a reduced social security contribution. Most employees still find it advantageous to have medical premiums pre-taxed. However, if you wish your medical premiums paid on an "after-tax" basis, you must complete a Rejection Form prior to January 1, 1992. The decision is yours, but will be binding for the 1992 calendar year and can be changed only if certain family status changes occur. Call **Kay Fryar** at 3698 for a rejection form - or for more information.

Mental Health Benefit - The proposed program will require managed care for inpatient and outpatient treatment only after 26 outpatient visits. The member's choice of mental health providers will continue since a preferred provider network will not be utilized for outpatient treatment. The anticipated effective date will be April 1, 1992.

Prescriptions - Tentative date is March 1, 1992. Proposed change will reimburse prescription drug purchases at 90% of average wholesale price (subject to deductible and co-payment.)

Hospital Preferred Provider Organization - No contract for preferred provider hospitals has been executed. Effective date is moved forward, but no alternative date has been set.

Dental Enrollment - Dental enrollment forms are due in HR **November 26**. Current dental participants must enroll in either the CIGNA Traditional or Managed Care in order to maintain dental coverage. *American Pioneer coverage ends December 31, 1991.*

Training - "Coaching Skills" November 26, 9-11 a.m.; "Managing for Service Excellence" November 27, 9-11 a.m.; "Charting A Career" November 27, 2-4 p.m.; "Introduction to Supervision" December 3, 9 a.m.-4 p.m.; "HUB-Dealing With Stress" December 4, 2-4 p.m. "Introduction to Supervision" December 5, 9 a.m. to 4 p.m. and "Sexual Harassment - Policy & Prevention" December 6, 10 a.m. to noon. The ERIC (Educational Resources Information Center) database for 1982-1991 is now available on the VAX. Access to this database is available for 8 simultaneous users through any VT220 type terminal on campus or by using a specially prepared version of MS-DOS Kermit (terminal emulator program) on a PC or compatible computer. Free copies of the "Kermit for ERIC" program can be made at the Randall Library Reference Desk. Please bring a blank, formatted 3 1/2" or 5 1/4" disk. This program and ERIC on the VAX will NOT work with Apples or Macintosh computers. VT220 access directions: At the Select Service prompt, type VXC and use ERIC for both Username and Password. VT220 users should make a copy of the template screen before paging forward. At the C prompt, type ERIC. Call the Reference Desk at 3760 for more information about using ERIC on the VAX, or Mike Pressley in Academic Computing Services at 3659 if you have problems using the "Kermit for ERIC" emulator program.

To date - 250 suggestions have been responded to.

COPY CENTER - Most departmental copiers can make a two-sided copy, however, copy machines are not designed for high volume two-sided copying. For ten or more copies, front and back - let the Copy Center print them for you. Departmental costs will be less for the copies, plus, your copy machine will not be down for service as a result of toner buildup on the rollers.

There is no charge for collating and stapling in the upper left corner for work printed at the Copy Center.

Cut costs and save the trees! Heavy weight papers are usually more costly than light weight paper. Consider having posters and flyers for bulletin boards printed on lighter weight papers. When the item is posted on the bulletin board, the weight of the paper is not noticeable. *Special thanks to an employee in Student Health and Wellness for this suggestion.*

In addition to leading the system in 1986 statistics, UNCW ranked second to UNC-CH for highest five-year graduation rates for classes starting in the three preceding years. These findings were released in the Sixth Annual Intercollegiate Athletic Report to the UNC Board of Governors at its meeting on February 14. The table showing graduation data for students entering in 1983 through 1986 examined rates for students graduating within five years from the institution in which they enrolled. For all student-athletes who entered UNCW in 1986, 75 percent graduated within five years. UNC-CH's comparable rate was 71.4 percent, with other institutions ranging from 21.3 percent to 55.3 percent.

CAMPUS HAPPENINGS

Alert To All IBM PC and Compatible Computer Users - A world-wide computer virus program, Michelango, is set to activate on March 6, Michelango's birthday. It will destroy any info on about the first half of the hard disk of the infected computer. Due to the way info is stored on the hard drive, this will result in all info on the hard drive being 'lost.' ****Will it happen to me?** The highest risk will be to those who have computers with hard drives, a built in date and time clock and who use floppy disks from many different sources. ****How does it get on my computer?** There is only one way the Michelango Virus can infect a computer - a floppy disk infected with the virus has to have been left in disk drive "A:" of the computer when it was turned on. Once a computer is infected, the hard drive and every floppy disk used in disk drive "A:" will be infected. This is how the virus is able to infect other computers. ****How can you tell?** If the next to the last line of the DOS CHKDSK program results in less than "653,312 bytes total memory" or less, the computer may be infected by the Michelango virus. The best way to be sure is to check the computer with an anti-virus program. Academic Computing has such a program - take a new unformatted floppy disk of any size and they will provide you with a copy. To date, no computer on campus has had this virus. Everyone should be alert, do not panic. For questions call AC at 3805.
